- JavaScript (TypeScript)
- AWS (CodePipeline, Cloudwatch, S3, DynamoDB, RDS, etc.)
- Git | Github | Bitbucket

## Language

English

Filipino

## Experience

### March 2023 - January 2024

Halcyon Agile | Mandaluyong City | Laravel

#### Company's own SaaS platform

- Participating in the development of a Software as a Service (SaaS) platform owned by the company.
- Collaborating with a multidisciplinary team of developers, designers, and product managers to define project scope and requirements.
- Participating in code reviews and automated tests

### April 2021 - January 2024

Halcyon Agile | Mandaluyong City | Node.js - React JS

#### Australian E-Commerce Web Application

### April 2020 - April 2021

Halcyon Agile | Pasig City | Laravel - Vue.js

#### Property Developer, Real Estate, Entertainment Projects

- Maintained interactive websites showcasing property listings, virtual tours, and entertainment events.
- Worked closely with cross-functional teams to ensure seamless integration of backend systems and frontend interfaces.

### September 2019 - April 2020

Halcyon Agile | Pasig City | Laravel

#### Hotel & Resorts Portfolio Web Applications

- Facilitated the development of the CMS and API for two Hotel & Resorts Portfolio Applications. The architecture follows a Client-Server model, and the portfolio site is divided into three main branches: Manila, Mactan, and Boracay. Additionally, I worked on another project with a Microsite architecture as its main framework.

### May 2019 - September 2019

Halcyon Agile | Pasig City | Laravel

#### Outsourcing Company's Portfolio & Parlay Betting App

- **Outsourcing Company Portfolio:** I worked on a web application using monolithic architecture. The backend was built with Laravel, while the frontend used Laravel Blade, Bootstrap, and jQuery.
- **Parlay Betting (Mobile App):** I led the development of the backend and API using Laravel. MySQL was chosen for the database, and I also built the CMS.
